

Joining Your Visit from a Mobile Device

1. If using a mobile device such as a cell phone or iPad, and **DO NOT** have the Zoom app already installed, open an internet browser, go to zoom.us and click JOIN A MEETING. The site will automatically redirect to the App Store or the Google Play Store to download and install the Zoom app on your device.
2. Once the **Zoom app is installed on your mobile device**, open the app and click the Join button.

3. A 10-digit meeting ID number will be provided. You will be prompted to enter this number in order to join the meeting. Enter the number and tap the Join button. The JOIN OPTIONS control how the audio and video will behave when initially joining the meeting.
